Report Descriptions
This Export will create a Safety Analysis.csv file in the CSV folder of the data structure. It exports all active Propane tanks, along with their regulators, public assembly & cathodic testing date with pass/fail status information, Leak and gas safety check dates, tank set date, and additional information.

This report can be utilized in multiple ways. Some examples:

- Tanks needing a standard leak test
- Cathodic and Public Assembly tanks needing tested
- Regulators needing replaced
- Provide information to insurance carriers at any given time
